					84 970	**81 170**	**3 800**		
					B4	N1			

*D = Day

Note: Fee Income and Service fees mean the same.

Comment:

- First transaction on the 10th (R12 450) is omitted – the amount has not been received from Mr Zakile during November 20.8. The transaction is recorded on the day when it is received and deposited.
- Third transaction on the 14th (R800) - this is a credit transaction and is therefore omitted.
- First transaction on the 18th (R660) - this is also a credit transaction and is therefore omitted.
- First transaction on the 23rd (R30) – the source document is the bank statement as this amount has been credited directly by the bank. Note also that the amount is not recorded in the Analysis of receipts column as the bank has already credited the account of Abe's Plumbers.
- Second entry on the 29th – calculation for rent: 1 500 + 10% = R1 650.
