Term 1: 2006

Captain: Nicholas Sachs
Vice Captain: Jason Guess

The side has gained invaluable experience playing in the B- League, although the results in all the games have not gone our way. All our local fixtures have been won convincingly. The only noteworthy tournament of the first part of the season is the Kingswood tournament. We played some good polo and gained a lot of momentum only to be totally outplayed in the final against St Andrews. The final was lost 5-3.

I would like to thank Jason for his leadership of the side in Nicholas' absence.

Term 4: 2006

Captain: Nicholas Sachs
Vice Captain: Jason Guess

The focus of the second part of the season was solely on the Sterrenberg Shield. In my short run as coach of the U15's our best result at this tournament was in 2003 where we just loss in the final. Everything was done to try and emulate the previous success. One of the most important factors was starting early, which meant having warm water. Again the side was unable to secure any heated water, but this has become something of the past. The upgrading of the Joan Harrison complex can now boast two pools with heated water. The annual Aliwal North trip still took place but became a logistics nightmare. Only upon arrival in Aliwal did we notice that the pools were all empty. Again the team was unable to get that all important pool time in. This lent itself to a bush camp on the banks of a dam on a farm in Komga. The water was freezing, but the side had a wonderful time and had a successful team building exercise. Stuart Jones got his finger caught in a tin and Jules Sanchez got bitten by a spider.

The side came 6th in the tournament and were unlucky to miss out on the Semi Finals because of point's difference. The draw to Grey Kollege in a pool game did not help our chances. The team worked hard through out the season and there is no doubt that with their commitment Selborne has and always will have a bright future. I would like to thank all of the boys for contributing to a thoroughly enjoyable season.
